Projects

Article Publishing

Project Description: We offer specialized Content Management Systems (CMS) and web publishing solutions for publishers. We can work with individual or multiple brands to support your digital transformation. Our platforms and solutions are designed to be delivered quickly and at scale. Understand B2B publishing and the different requirements and challenges of key stakeholders across the business

Asset Management Tool

Project Description -Asset Panda is a powerful Cloud/Mobile App asset tracking platform. Asset Panda helps people track, manage and support their assets throughout their life cycle. User can use barcode scanner to look up asset details and automate pick lists.

Role based security ensures that employs are granted the appropriate level of access

Other features includes asset photo tagging, and replication

SME

Project Description: In this Project we have three different user one is manager one is SME and one is student. As per the Student asked the question and its passes to the SME and we get the answer and the manager will Check its Quality and he will approve. The Student will get the full steps by step solution from the SME
